Introduction

This Handbook is intended to provide employees with a general understanding of some of the Company's personnel policies. It is not an employment contract or a legal document. The information in this Handbook should be helpful in familiarizing employees with the Company.

This handbook contains company information and a summary of The Company policies which are correct as of date. You should note that all policies are subject to change and variation from time to time. The handbook is designed to give clear advice to employees and to create a culture where issues are dealt with fairness and consistency. This is a guide to your terms and conditions of employment and should be read in conjunction with your individual statement of employment. The handbook provides you with important information relating to The Company's policies, procedures and rules. The information contained in this handbook applies to all our employees.

About The Company

What we Do

ProVal Tech helps MSP's offload non customer-facing work, so they can focus their time and energy on growth and customer service. Our spectrum of services includes managing MSP tools like RMM's, backup & DR, end-point security, and providing 24x7 monitoring of end-client infrastructure on the MSP's behalf.

Our approach is solution-focused, which makes ProVal accountable and responsible for the particular service the MSP partners with us on. We like to take a consultative approach, leading from the front, advising our partners, and then also providing operational excellence to carry out these deliverables.

Our Story

- Founded in 2008 to help Managed Service Providers (MSP's) with offshore talent
- Pivoted to focus on providing MSP solutions, rather than engineers in 2012
- 100% focused on professional services, 100% MSP / channel model

Company Logo

The ProVal Tech company logo is the Delta symbol, which is the initial letter of the Greek word διαφοράdiaphorá, "difference". (The small Latin letter d is used in much the same way for the notation of derivatives and differentials, which also describe change.) Change, being the only constant in the world, symbolizes our thinking and being open to it always.

How are we Different

Our approach to deliver services is guided by certain core principles, which are outlined below:

Delivering Solutions: The core of our value-proposition to partners is built on providing “solutions” to our partners. ProVal wants to solve problems for MSP’s, by leveraging our team of experts and their experience in the Managed Services industry. This approach puts onus and accountability on our team, allowing the MSP to truly focus on customer-facing activities.

Deep Tools Expertise: With MSP tools becoming more powerful, the complexity and learning curve to master them is increasing. Our laser-focus on mastering MSP tools brings great value to our partners in leveraging tool functionality and capability to its best. With a team of experts dedicated to every tool and technology, we go “deep” with tools and how they integrate into the MSP ecosystem.

Automation using DevOps: Managed Services 2.0 is all about automation, scripting, DevOps, and API’s. ProVal Tech’s experts leverage automation in every possible manner to provide our MSP partners with smart and efficient solutions which are scalable. With an all-star in-house team of experts with years of experience on scripting within either ConnectWise Automate (LabTech) or Kaseya, writing PowerShell for Microsoft-based systems, or leveraging application API’s to pull, push or integrate data, there is nothing that is out of reach for us.

Consulting: We use a consultative approach while working with our partners, ensuring they are aligning their business and technology with industry trends and best-practices to build sustainable and long-lasting businesses.

Fanatical Customer Support: ProVal strives for excellence in Customer Service, and we wouldn’t have it any other way. Our high partner retention and referral rates are a testament of the high standards we hold ourselves accountable to.

Vision, Mission & Values

Vision: To be the professional services partner of choice for growth-oriented MSP's.

Mission: Make Managed Service Providers (MSP's) more productive and efficient, while improving service delivery and profitability.

Our core values:

- **Passion & Purpose:** It all starts with passion. We are a team of technologists that is passionate about what we do and take pride in it.
- **Innovation:** We like to innovate and create. New ideas, new ways of doing things, and new solutions.
- **Growth:** We like growth. While growth in numbers is good, growth comes in many shapes and sizes. Growing as individuals leads to growth as a company.
- **Execution:** Having great ideas is one thing; being able to execute them is another. ProVal takes pride in being able to execute on great ideas and working towards the vision of the company.
- **Doing the right thing:** Do the right thing. Every single time.

Our values provide the foundation upon which everything else rests. They are a defining part of who we are, and no matter what happens, success or failure, we will not compromise our values. We live by

them from day to day. We do not compromise our values for short-term gains, ease of doing our jobs, to close a sales deal or make a partner (temporarily) happy, or for any other reason. Above everything else, we are all expected to live by and demonstrate these values in all we do as a member of the ProVal team.

As part of our hiring process, we are looking for those who are completely aligned with these values and are a natural part of who they are. You have joined a team that is completely committed to these values, and we are excited to welcome you to the team to add your character, energy, and enthusiasm to our collective efforts in living these values!

ProVal Culture – A place you want to be

- Work with purpose / passion
- Open and transparent, yet professional
- Put the “Organization” above all, do what’s best for the company.
- Stay aligned with company values
- Self-discipline and self-motivate
- Over-communicate

General Code of Conduct

Employees are expected to maintain the standards of conduct and integrity in the performance of their duties and responsibilities. An employee who fails to conform to a reasonable standard of professional and personal behavior in carrying out assigned duties or who has a disregard for laws, rules, or regulations will face disciplinary action.

1. Dress code
 - a. Business Casuals/Formals/Semi Formals – Monday to Thursday
 - b. Smart Casuals – Friday to Sunday
2. Smoking/Alcohol/Substance Abuse
3. Respect for others
4. Honesty & Integrity
5. Ownership & Accountability

Standards of Conduct

Rules outlining acceptable conduct of employees are necessary for the orderly operation of any business and for the benefit and protection of the rights and safety of all employees. To promote understanding of what is considered unacceptable conduct and to encourage consistent action by the Company in the event of violations, examples of impermissible conduct are identified below. It is impossible to provide an exhaustive list of types of prohibited conduct. The following list, therefore, contains only some examples of prohibited conduct.

- Entering Company property or working at a job site while under the influence of, or having in your possession, any intoxicating beverage or illegal drug. This includes consumption, sale or transfer of such substances during break hours or during work time or in Company vehicles or in personal vehicles on Company business.
- Stealing or attempting to steal Company property or the property of other employees or customers.
- Bringing firearms or weapons of any kind onto Company property or job site. Fighting, scuffling or indulging in horseplay.
- Removing Company property without written approval.
- Intentionally destroying or damaging Company property or the property of other employees or tampering with any safety equipment.
- Refusing a direct order from your supervisor (insubordination).
- Falsifying employment application or other documents required by the Company.
- Concealing mistakes.
- Excessive absenteeism, uninformed absence for more than 2 days.
- Soliciting, collecting funds, selling or attempting to sell any merchandise to other employees on Company premises during work time at workstations.
- Distributing any non-work related material of any kind during work time at workstations.
- Leaving the premises without permission.
- Threatening, intimidating, coercing, harassing or interfering with fellow employees or indulging in harmful gossip.
- Violating the Company's policy against harassment and discrimination.
- Performing activities other than Company work during working hours.
- Conviction of a civil or criminal violation requiring an absence from work of more than one workday.
- Using Company stationery and/or Company supplies or materials for personal use.
- Smoking in restricted areas.
- Failing to report immediately to the supervisor any injury, no matter how slight.
- Operating a Company vehicle or a personal vehicle on Company business without a valid driver's license, valid registration or insurance required by law.
- Loafing or sleeping on the job.
- Disposing of refuse or litter in other than the containers provided for that purpose.
- Gambling on Company property.

- Using profane, abusive, or threatening language towards fellow employees, supervisors, or customers.
- Engaging in immoral conduct or indecency.
- Failing to report malfunction of equipment to your supervisor.
- Any other serious misconduct.
- Any violation of any policy or procedure of the Company.

The above list is intended only as a guideline and not as an exclusive list of prohibited conduct. The Company may add work or safety rules at any time. Any violation may lead to disciplinary action as decided by the management.

Disciplinary Action Policy (DAP)

Criteria

- Any sign of insubordination
- Any case of sexual harassment (Zero Tolerance)
- Employee found doing substance abuse, drinking alcohol on duty (Zero tolerance)
- Any deviation in the standards of conduct.
- Physical & Verbal fight, using profanity (Zero Tolerance)
- Any deviation from the General/standard course of conduct as mentioned above

Process

- In case of zero tolerance issues, employee can be terminated with immediate effect (Management has a discretion to issue a warning letter and put the employee under correction plan instead of termination)
- For issues other than zero tolerance, an employee is issued a warning letter and is put under the correction plan for 1 month. During this period, the individual will be under strict observation. (Management has a discretion to terminate the services in case of the severity of the situation.)
- The DAP/warning letter will be documented in the personnel file and will be uploaded in our HRMS tool.

Consequences

- Termination of Services
- No salary revision in that year
- No promotion in that year

Internet Usage Policy

Purpose

The purpose of this policy is to define the appropriate uses of the Internet by ProVal employees and affiliates.

Scope

The Internet usage Policy applies to all Internet users (individuals working for the company, including permanent full-time and part-time employees, contract workers, temporary agency workers, business partners, and vendors) who access the Internet through the computing or networking resources. The company's Internet users are expected to be familiar with and to comply with this policy, and are also required to use their common sense and exercise their good judgment while using Internet services.

Policy

Certain employees may be provided with access to the Internet to assist them in performing their jobs. The Internet can be a valuable source of information and research. Use of the Internet, however, must be tempered with common sense and good judgment.

If you abuse your right to use the Internet, it will be taken away from you. In addition, you may be subject to disciplinary action, including possible termination, and civil and criminal liability.

Disclaimer of liability for use of Internet: ProVal Technologies is not responsible for material viewed or downloaded by users from the Internet. The Internet is a worldwide network of computers that contains millions of pages of information. Users are cautioned that many of these pages include offensive, sexually explicit, and inappropriate material. In general, it is difficult to avoid at least some contact with this material while using the Internet. In addition, having an e-mail address on the Internet may lead to receipt of unsolicited e-mail containing offensive content. Users accessing the Internet do so at their own risk.

Duty not to waste computer resources: Employees must not deliberately perform acts that waste computer resources or unfairly monopolize resources to the exclusion of others. These acts include, but are not limited to, sending mass mailings or chain letters, spending excessive amounts of time on the Internet, playing games, engaging in online chat groups, printing multiple copies of documents, or otherwise creating unnecessary network traffic. Because audio, video and picture files require significant storage space, files of this or any other sort may not be downloaded unless they are business-related.

No expectation of privacy: The computers and computer accounts given to employees are to assist them in performance of their jobs. Employees should not have an expectation of privacy in anything they create, store, send, or receive on the computer system. The computer system belongs to ProVal Technologies and may only be used for business purposes.

Monitoring computer usage: ProVal Technologies has the right, but not the duty, to monitor any and all of the aspects of its computer system, including, but not limited to, monitoring sites visited

by employees on the Internet, monitoring chat groups and news groups, reviewing material downloaded or uploaded by users to the Internet, and reviewing e-mail sent and received by users.

Blocking of inappropriate content: ProVal Technologies may use software to identify inappropriate or sexually explicit Internet sites. Such sites may be blocked from access by company networks. In the event you nonetheless encounter inappropriate or sexually explicit material while browsing on the Internet, immediately disconnect from the site, regardless of whether the site was subject to company blocking software.

Issues/concerns

If the user is facing any related issues, raise a request at it@provaltech.com and cc: respective manager.

Approval Process

Internet access is requested by the user or user's manager. The User/user's Manager needs to raise a request at it@provaltech.com and cc: respective manager.

Prohibited Usage

Our employees mustn't use our network to:

- Download or upload obscene, offensive, or illegal material.
- Send confidential information to unauthorized recipients.
- Invade another person's privacy and sensitive information.
- Download or upload movies, music and other copyrighted material and software.
- Visit potentially dangerous websites that can compromise the safety of our network and computers.
- Perform unauthorized or illegal actions, like hacking, fraud, buying/selling illegal goods and more.

Note:

We also advise our employees to be careful when downloading and opening/executing files and software. If they're unsure if a file is safe, they should ask [their supervisor/ IT team etc.]

Our company may install anti-virus and disk encryption software on our company computers. Employees may not deactivate or configure settings and firewalls without managerial approval. We won't assume any responsibility if employee devices are infected by malicious software, or if their personal data are compromised because of inappropriate employee use.

Disciplinary Action

Employees who don't conform to this employee internet usage policy will face disciplinary action. Serious violations will be cause for termination of employment, or legal action when appropriate. Examples of serious violations are:

- Using our internet connection to steal or engage in other illegal activities.
- Causing our computers to be infected by viruses, worms, or other malicious software.
- Sending offensive or inappropriate emails to our customers, colleagues, or partners.

Work from Home/Hybrid Model:

For women who are expecting after having 2 children, the duration of paid maternity leave shall be 12 weeks (i.e., 6 weeks pre and 6 weeks post expected date of delivery).

- Maternity leave for adoptive and commissioning mothers:

The Maternity Benefit Amendment Act extends certain benefits to adoptive mothers as well and provides that every woman who adopts a child shall be entitled to 12 weeks of maternity leave, from the date of adoption.

- Work from Home option:

The Maternity Benefit Amendment Act has also introduced an enabling provision relating to "work from home" for women, which may be exercised after the expiry of the 26 weeks' leave period. Depending upon the nature of work, women employees may be able to avail this benefit on terms that are mutually agreed with the employer.

- Paternity Leave:

Employee is entitled for 7 days of paternity leave in a single block/ split as per convenience, the leaves can be availed within 90 days of the actual date of childbirth.

Paternity leave can only be taken post childbirth.

1. Maternity/ Paternity leaves are not encashable in any manner
2. Paternity leave shall not be allowed on more than 2 occasions during the entire service period.

Probation and Confirmation

Purpose

- The Policy on Probation and Confirmation highlights the process and periodicity of Performance Evaluation for new employees on probation.

Applicability & Process

- All new hires will be on probation for a maximum period of 6 months (as applicable) from the date of joining the organization, as is specified in the appointment letter.

- During this period, based on the performance of an employee, there could be the following outcomes:
 - He/She may be confirmed after 3 months.
 - He/She may be placed on an extended probation for another 3 months.
 - His/Her services may be discontinued.
- An employee is deemed confirmed if no communication is given for extension of the probation period.

Performance Management System

Purpose

Overall assessment of employee's contribution to their respective jobs and projects they are associated with.

Policy

At ProVal we conduct 3 types of assessments:

1. 30/60/90 day evaluation
2. Bi Yearly Reviews
3. Annual Assessment

30/60/90 Day Review

Process:

- 30/60/90 day form is sent to the employee upon completion of the said duration in the company.
- The form encourages employees to share candid feedback about their initial experience and their understanding of their role/goal sheet.

Bi-Yearly Review

Applicability:

Applicable to all the employees who have completed 1 year or more in the organization.

Process:

- A bi-yearly review form is sent to the employees and a supervisor form is sent to the manager for employee's evaluation.
- A formal meeting is scheduled wherein employees can share their experiences and challenges and supervisors can share their feedback and set the goals for next quarter.

Annual Performance Review Policy

Purpose:

Overall assessment of employee's contribution to their respective jobs and projects they are associated with.

Applicability:

Applicable to all the employees who have completed 12 months or more in the organization and have been present for atleast 180 days in the assessed year.

Policy:

- We follow 2 appraisal cycle in ProVal – June and December depending upon the eligibility.
- Employees who joined the organization after August are due for their appraisal in December cycle next year.
- Employees who joined the organization after January till August are due for their appraisal in June cycle next year.
- The salary revisions are w.e.f 1st January and 1st July respectively.
- Employees fill up their self-appraisal form and submit the same to their supervisor.
- Once the form is submitted, formal performance review discussion is initiated with the supervisor.
- The purpose of the meeting is to review the previous year's achievements and to set objectives for the following year.
- Rating is given by Manager and respective HR SPOC.

Note

Performance Improvement Plan

The Performance Improvement Program (PIP) is designed to provide feedback to non-performing employees and assist them in coming up to the expectations of their reporting managers. It is implemented, at the discretion of the Management, when it becomes necessary to help an employee improve his or her performance. A Performance Improvement Plan outlines concerns that a manager has with the reviewing employee's recent performance.

Process

- Manager conducts the meeting with the employee and the HR SPOC and shares the concerns with the employee.
- HR issues the written document about the issues as shared in the meeting. The expectation from the employee and the next review date is mentioned in the document.
- If the manager still sees the gaps in the performance at the end of the review period, another warning letter is issued.
- Non improvement in the performance may lead to termination of the services with immediate effect.
